

# ANNOUNCEMENT SERVICE 3 — RESERVATION

## TRUCKinform

...the pan-European platform for truck parking

### Reservation service now available — for free!

Truckstops can now subscribe to the reservation service of Truckinform. Dispatchers and truck drivers can then pre-book truck parking spaces — via the internet and on board computers. Europe-wide. Improve your convenience and benefit from Truckinform — sign up NOW!

Truckinform is one single platform containing a unified, detailed, and up-to-date inventory of European truck areas. It comprises the following three services:

1. **Information** about 2'500 truck parking areas in 40 European countries.
2. **Availability/guidance**, where users will be directed to the next available and appropriate truck parking place (available soon!)
3. **Reservation**, where it becomes possible to book a truck parking space in advance.

#### Drivers/dispatchers: it is very easy to book a parking

1. register on [www.truckinform.eu](http://www.truckinform.eu) (for free!)
2. search for bookable truck parking area (labeled with **R**)
3. enter arrival and departure time — done!

#### Truckstop operators: sign in for Truckinform, Service 3

1. You can offer an additional service, relevant to many
2. You are able to receive bookings from drivers and dispatchers from all over Europe
3. You can choose from two methods of handling reservations on your site
  - a) by handling access control manually (like a daily reservation list forwarded to your e-mail address)
  - b) by connecting your parking management system (gate, barrier)
